

Brother Patient ID Printing

Improve patient safety
by printing wristbands
and labels at the
point of care

The new Brother Patient ID Printing Solution is designed with your healthcare needs in mind. Versatile and transportable, it provides on-demand printing of the most in-demand media in Healthcare – patient wristbands and medical labels.

Intuitive Control Panel & LCD Display option

Simple to use optional control panel and LCD display gives the ability to enter information without the need of a PC or mobile device

Prints both wristbands and labels

Easily load and print both wristbands and labels. TrustSense smart technology senses the right media and automatically calibrates itself with no intervention to verify media size and set the proper print density for each type of media.

Compact footprint

Easily fits on carts or crowded desktops and has secure mounting slots for wall

WLAN or Bluetooth® Wireless options

USB, USB Host, Serial, and Ethernet interfaces come standard. Optional Bluetooth® and Wi-Fi® interfaces are available for total mobility.

Innovative spindle-less design

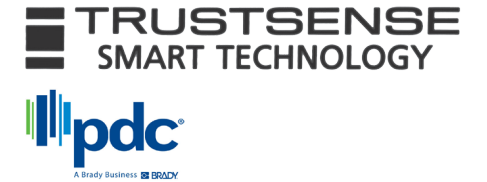

Simply drop in a roll up to 5 inches in diameter and you're ready. Saves time loading media, while removing the guess work from printing.

Long life li-ion battery and charging options

The optional battery accessories empowers clinicians to administer care with the patient at almost any point of care location. The battery pack also helps reduce costs by cutting out the need for a powered cart.

For superior quality and performance, the TD-2130NHC uses TrustSense media from PDC Healthcare - a trusted leader in positive patient identification for more than 55 years.
