

Customer Parts List: Printers

Parts not on this list are not available for resale without proper authorization.

A "replaceable part" is an "integral piece or part of the whole unit", which includes hardware such as nuts, bolts and screws, and when absent, renders the unit "less than whole". This differs from an "accessory", which is added, subordinate, adjacent, or ancillary to the main unit and enhances or extends it's functionality but is not critical to its integral operation and, when absent, does not render the unit "less than whole".

Note: for accessories, see Price Guide or refer to your authorized Intermec reseller. If you need hardware that is not listed below, please contact Intermec Sales a 1-800-755-5505
